

THE EASIEST WAY TO INVITE COLLEAGUES TO JOIN ASM IS TO TELL YOUR OWN STORY

As a valued member of our global community, you have an interesting story to tell! Why not share how your experiences with ASM have made a difference in your life. Perhaps an industry veteran helped you find an answer, a chapter member linked you with a vital business contact, or a like-minded colleague became a close friend. Relationships are one of the most powerful benefits ASM membership offers.

In this welcoming community, connections can start at any level, from a local chapter meeting, to an ASM event. There's a place for every interest and experience level in ASM. Bonds form as members learn, share, grow, and work together for the betterment of our world.

Here are more **ASM Member Benefits** to add to your story!

- ASM points, earned through purchases that can be redeemed for valuable ASM content.
- Discounts to global conferences and expositions for face-to-face connections with industry influencers and decision makers.
- Accredited education courses with online, live, and blended classroom instruction available from instructors who are experts in their industries.
- 24/7 access to comprehensive, peer-reviewed materials science resources like ASM Handbooks, reference publications, technical journals, online databases and our NEW website.
- Discounts on famous name business software, shipping, car rentals, auto insurance, publications, and more.
