Virtual Chapter Meetings

• Our Chapters are one of the most important aspects of ASM. The ability for our 88 Chapters to collaborate, network and work together is one of the things that makes ASM great.

• Due to current health concerns many states/countries are limiting physical meetings and get togethers. To help our members we would like to enable Virtual Chapter Meetings. To enable this we will:
  • Make Zoom audio/video conferencing licenses available to all ASM Chapters.
  • Zoom conferences can be used for any group of up to 100 people, are very easy to set up and can be recorded for playback for people who could not attend the live meeting.
  • Zoom conferences can be used in conjunction with the events module of ASM Connect 2.0.
  • Detailed training is being developed and will be rolled out ASAP.
  • To learn more about setting up a Zoom conference, select the link below
