East End Welding (EEW) is a privately held company that was established in 1967. EEW provides full service metal fabrication of process vessels, tanks, conveyors, and piping systems for the metals & mining, chemical, and power generation industries. Their services include providing complete welding, fabrication, machining, sand blasting and painting operations. Their specialty is in meeting the most exacting design and engineering specifications by providing high-quality production services-always delivered on schedule. For more information, please visit http://www.eastendwelding.com/

Thank you to our 2014-15 Corporate Sustaining Members
