**TSS Training and Certificate Program**

Advance your career through this robust curriculum in thermal spray training.

Learn introductory and advanced technical information, safety guidelines, as well as the best processes and procedures for this valuable surface application. Taught by respected industry experts, the program offers three course tracks, allowing you to tailor the program to your needs.

- **Science/Engineering/Research Track**
- **Management/QC Track**
- **Operator/Technician Track**

Elective specializations in aerospace, automotive, tungsten-carbide overlays, oil and gas, advanced diagnostics and robotics are also available.
