

## Cwajna Named 2018 Sorby Lecturer

The Sorby Award is presented annually to an internationally recognized figure, for lifetime achievement in the fields of metallography and materials science. Recipients are acknowledged for their contributions and dedication to research, teaching, and/or laboratory sales and service.

The recipient of the 2018 Sorby Award is **Professor Jan Ludwick Cwajna**, 30-year chair of materials science at the Silesian University of Technology in Poland. Because Prof. Cwajna is unable to travel, **Professor Agnieszka Szczotok**, also from the department of materials science at Silesian University, will present the Sorby lecture on his behalf.

The lecture, “Summary of Analysis of Human and Methodological Factors Affecting the Accuracy and Precision of Quantitative Descriptions of the Microstructure of Materials,” will be held at [MS&T18](#) in Columbus, Ohio, on **Tuesday, October 16, 2:00 to 3:00 p.m.** in Room A123 at the Greater Columbus Convention Center.

The Sorby lecture is part of a 2 1/2 day [IMS Symposium](#) at MS&T18 on Metallography and Microstructural Characterization of Materials and the Correlation of Microstructure to Mechanical Properties.
