The Annual ASM Professional/Student Mixer Night is set for 6:00 PM on Thursday, September 22, 2016, at Conor O’Neill’s in the heart of downtown Ann Arbor. This is a great event where Chapter Members can meet the up and coming talent in Materials Science from local universities and colleges in a casual environment. It also provides an opportunity for students to interact with professional leaders to discuss the various networking and scholarships opportunities ASM has to offer.

Mark the day! Please plan on joining this social event, which provides a unique social opportunity for students and professionals and to discuss various carrier paths as Materials Engineers.

Many Thanks to ASM Detroit Chapter Members for Ann Arbor Teachers Camp Donations

The ASM Ann Arbor Teachers Camp returned to Ann Arbor July 18-22 thanks to the past support of many Detroit ASM Individual and Sustaining Members and local companies. Peg Jones offered to match Detroit ASM Member contributions dollar for dollar up to $5,000 which inspired the Detroit ASM Executive committee to offer to match the first $1,500 in member contributions with an additional dollar for dollar deal. The first $1,500 in contributions were matched 2 for 1, and got to make great things happen for 35 teachers and all their future students.

Many thanks to the following ASM Detroit Chapter Members for their Contributions:

Mr. Eric McCarty
Dr. James G. Schroth
Dr. Jack G. Simon, FASM
Dr. Ronald H. Radziowski
Dr. Robert C. McCune
Mr. Robert E. and Karen M. Luetje
Mr. Gary C. Witt, FASM

Professor Ronald Gibala
Mr. Jatinder P. Singh
Dr. Kathy L. Hayrynen, FASM
Mr. Frank Carson, FASM
AFC Holcroft
Mr. Don Cohen

A Message from JP

With this message, I welcome you all to the 2016/17 Chapter year. As I pen down my message, my thoughts go back to what brought me into the folds of ASM nearly 15 years after my initial, albeit brief, engagement as a student member in mid-90s. First, it was the exposure to Detroit Chapter activities through my association with a colleague, Jason Coryell, who had been very active on the Chapter Board and later served as a Chair. Second was my participation at various Chapter monthly meetings driven by engaging topics and a drive to network with like-minded individuals that had piqued my interest towards direct involvement in the Chapter activities.

Personally, Detroit Chapter membership has made me feel very close to a network of not only professional colleagues but I have also made some good friends with whom I enjoy growing professionally and have learnt to nurture and care about Materials Science. My point being that we can show the new local colleagues the benefits of ASM membership, through similar levels of mentoring which I received, continued good programming and a sense of camaraderie. Membership growth is one of our strategic goals this year and I request each one of you to help us in building our Society strong.

Our Chapter’s unmatched record of hosting 14 ASM Teachers Camps, as well as our student and teacher scholarship programs are establishing a strong foundation for training future engineers and materials scientists. We hope to further support and strengthen these areas in the next five-year strategy that the Chapter Board put in place earlier this year.

My sincere thanks to the outgoing Chair, Eric McCarty, the Executive Committee, along with our admin. Julie Nimer for another exceptional year of service. Under Eric’s leadership, our Chapter ran another successful year, developed the next five-year strategy, hosted a successful student mini-camp, and published the Yearbook highlighting 2013-2015 year Chapter accomplishments.

I proudly join our membership in congratulating three new fellows of ASM (FASM), Dr. Manish Mehta, Dr. Susan Hartfield-Wünsch and Dr. Peg Jones (Saginaw Valley Chapter) for their significant academic and professional accomplishments and contributions to the Material Science and Engineering field and for receiving this much-coveted ASM International honor.

Finally, I strongly believe that if you are reading this newsletter, at a deep level you care about this affiliation and are proud to be a part of it. So let us help it grow with some new members, some new ideas, some new thoughts to make it a better world of Materials Sciences for us and others to come! I wish you all a very pleasant summer and for those of you golfers, a very productive time as you take strokes off your handicap and get ready for the upcoming ASM/AFS Golf outing in August. We hope to have another fruitful year for our Chapter as our Executive Committee and I look forward to serving you and to seeing you at various upcoming Chapter events.

Best regards,
JP Singh
