MESSAGE FROM THE CHAIR

May 2018

Well we have come to the end of a productive year for our chapter with successful, varied and interesting technical presentations at our meetings and important awards for students from Grades 9-12 in the Delaware Valley Science Fair, to our chapter scholarships for undergraduate students, and at the poster contest for graduate students. Thanks to the late Alicia Gaydos’ efforts as former Chair, major strides have been taken in reorganizing and reinvigorating this chapter for the 21st century, which work will be ongoing. This year, this chapter also directly sponsored the Delaware Valley Science Fair program for ASM, assuring the continuance of materials engineering in that program.

While this year, I assumed the role of Chair upon Alicia’s untimely passing to continue her organizing efforts, I look forward to Chairing the next Chapter year of 2018-2019 which marks our Chapter’s, and really ASM’s, Centennial. We will be having some great programs for that, including the National Officers night in the same hotel where it all started, and possibly even in the same room. But, rather than just sit on our laurels, we will also be looking into the future to develop our Chapter for the challenges of its next centennial, and the hundred years in-between. For all of this, we will need all of our members’ help, ideas, and contributions. We can’t do it without all of you. We will be upgrading our bylaws and procedures to make our programs more relevant and reach not only materials developers and producers of traditional materials, but to expand into all types of materials, and their fabrication and application as well and involve those regional universities and industries we have not served as well in the past while also striving to become more meaningful to those we already serve and/or had served in the past. We aim to work more closely with our adjacent chapters as well as with other regional engineering societies, to develop special programs relevant and convenient to young members, and work closely with headquarters as they mold ASM into the international materials society they envision covering all materials. To this end, we will look to include start-ups, artisan based industry, and cutting edge local industries as they expand into new territories that can re-harness the Philadelphia industrial scene into a revitalized place of American industry, but without the pollution and negative impacts that old industry once posed. But, as I said before, we need every member’s input and help to make all of this possible and for this Chapter to better serve its members needs and ideals both now and in the future for the next hundred years.

For the May 17, 2018 awards and past chair’s night meeting, we look forward to your attendance at this important event as we hand out the well deserved awards to our members and scholarship recipients. We also look forward to the parade of past chairs who made this Centennial possible, and remembering Alicia for her work in that effort. See you on May 17th and congratulations to all the awardees.

Sincerely,
Norman S. Marcus, P. E.
Chair, 2018-2019

2018 ASM Liberty Bell Chapter Poster Contest Winners

1st place: Asia Sarycheva
2nd place; Patrick West
Tie for 3rd: Amanda Bellafatto / Tyler Mathis

Save The Date!
100th Anniversary Celebration

Mark your calendar and plan to join us for the biggest birthday celebration in 100 years! That’s right ASM’s Liberty Bell Chapter is celebrating 100 years. On March 21, 2019, the Chapter will celebrate the anniversary of the first meeting of the Philadelphia Chapter (then the American Steel Treaters Society) with a special event, recreating our original meeting at the Bellevue. The Bellevue is a beautiful hotel and located immediately south of City Hall in Center City (with parking). The meeting date is March 21, 2019 – exactly 100 years to the day of the original meeting and on our normal third Thursday of the month. Special speakers, local dignitaries, and as many former ASM International Officers and Chapter Chairs as can attend will be invited. Additional details will follow but mark your calendar now. Spouses are invited to join us all for this unique and fun evening!

PLANT TOUR

In the fall, LTI is offering a plant tour to visit their new state of the art Fracture & Fatigue Test Lab that recently completed construction. We will also be touring our Machine Shop, Non-Destructive Departments including Radiography and Ultrasonic Testing, along with our Destructive Departments including Mechanical, Chemical, and Metallography Testing.

Address: 2332 Topaz Drive, Hatfield, PA 19440
