Outgoing Chairperson’s Message

May 2016

I can’t believe the last year has gone by so fast. There have been many things going on within the Chapter over the past year, and I have met many great people along the way, and as I think I am starting to get a handle on the situation, my term is coming to an end. We had many great speakers and contributors this past year, and I look forward to continuing to contribute to our chapter for many more years.

While I have been honored to serve the Philadelphia Liberty Bell Chapter as Chairperson, I am happy to hand the gavel over to Nick Cordisco. Nick has been on the Executive committee for several years, and he has even filled in for me when I couldn’t attend a meeting - and he will do an excellent job in his new role.

I would like to thank everyone on the E&O committee who has volunteered their valuable time over the past year. It is not easy to donate this amount of time with all of the other responsibilities in our professional and family lives. This is the main reason all chapters across the country have problems with membership. In fact, the Philadelphia Chapter is one of the stronger chapters in the country, and I think our E&O committee has some great ideas for continued success for our Chapter moving forward.

Finally, I would like to thank all of our members for supporting the Philadelphia Chapter donating their time, sponsoring events, and giving the E&O committee new and different ideas to make the Chapter stronger each year. I am grateful for all of you participating and coming to the meetings each month. This past year was a memorable one that I will not forget!

Best Regards,
Jamie Jones
2015-2016 Chapter Chairperson

2016 ASM Liberty Bell Chapter Poster Contest Winners

Pictured left to right: Mike Moyer, Solar Atmospheres, Inc. and Poster Contest winners:
1st place was Mallory Clites with “The Effect of Structure and Composition on Electrochemical Performance of Sodium Vanadium Oxide”;
2nd place was Bryan Byles with “Tunnel Structured Manganese Oxide Nanowires for Electrochemical Energy Applications” and
3rd place was Katie Van Aken with “Ionic Liquid Mixtures Electrolytes to Increase Performance in Electrochemical Capacitors”.

Incoming Chairperson’s Message

May 2016

I am honored to serve as the Chairperson for the ASM Liberty Bell Chapter this upcoming 2016-2017 year, and I hope to serve the Chapter well in this new roll. I want to thank last year’s Chapter Chairperson, Jamie Jones, for all of his hard work, dedication and mentoring. I would also like to thank the Executive and Operating Committee for their continued support, and Solar Atmospheres Manufacturing, Inc. for enabling me to be involved in this great organization.

There are many valuable benefits to being involved with ASM. One that can be very advantageous is networking with seasoned professionals within the materials and related industries. This experience has helped me grow both personally and professionally, as it has done so for many others that belong to this Chapter. I encourage young members to fully take advantage of these opportunities by participating in the meetings, and getting involved with the Operating Committee.

The 2016-2017 Program is shaping up to be an excellent one! You can look forward to interesting and educational presentations at our monthly Chapter meetings, materials related tours, dinners, fundraisers, awards, and Materials Camp along with other activities. This year, our Chapter’s traditions will continue but look for a few new venues to be thrown into the mix to hopefully help generate some new interest.

I look forward to this upcoming year of opportunity. I welcome your feedback and recommendations on how to help evolve the Chapter and better serve our members. Please contact me or someone else on the Executive or Operating Committee to help create a strong future for our ASM Philadelphia Liberty Bell Chapter.

Sincerely,
Nick Cordisco
2016 – 2017 Chapter Chairperson

2016 Materials Camp

We are accepting applications for our 12th Annual Materials Camp at Drexel University on June 20-24. Each year there is a strong demand for the camp, with between 75 and 100 applicants over the last few years. With between 20 and 25 slots available, it is very competitive. The very best engineering-oriented students in our region are being served by our camp. As a result of their experiences at camp many are pursuing a Materials Engineering career.

The program is one our Chapter is extremely proud of. It really makes a difference in the lives of the students. We depend on the generosity of local companies and individuals to continue providing this priceless learning experience. Please contact Brian Gorney at 586-354-5167 or gorneybj@gmail.com to become a sponsor and have your company linked to this wonderful program. Students may apply for the 2015 Materials Camp by downloading the application on the Outreach tab of our website at www.philadelphia.asminternation.org.

Mission Statement - ASM International Philadelphia "Liberty Bell" Chapter
The Philadelphia "Liberty Bell" Chapter of ASM International supports the development and continuance of the materials industry in the Philadelphia area. Chapter activities strive to inform the local technical community of new developments in materials, raise the visibility of the materials industry, provide educational opportunities in materials technology, recruit new people and organizations into materials-related activities, and provide networking opportunities for members of the materials community. The Chapter works with ASM International to use our joint resources to accomplish this mission.
