Our Tuesday September 15, 2015 Meeting is a Joint Meeting with the Royal Aeronautical Society at 6:30 PM at the Museum of Flight.

The Royal Aeronautical Society Seattle Branch invites you to:

“William Boeing and the Creation of America’s Airways”

with Mike Lombardi

In 1927, only 11 years after starting his airplane company, William Boeing took a giant step toward realizing his vision for the future of the airplane when he successfully bid for the country’s longest airmail route and started his own airline.

At the time it was a tremendous risk, but within 11 years, Bill Boeing had grown that new business into one of America’s largest corporations: United Aircraft and Transport.

His meteoric success in the time of Great Depression also brought him into direct conflict with the newly elected Roosevelt administration. Hear Boeing Historian, Mike Lombardi, tell how Boeing achieved his amazing success, what really happened when the government intervened and what is the lasting legacy of William Boeing and his aviation empire.

Sept. 15, 2015 – 6:30pm
Museum of Flight - Seattle
William M. Allen Theater
Free Admission – Open to the Public

TO:
Aviation Enthusiasts
