GOLF OUTING – JUNE 13 at River Oaks
Chapter Update

This year's Student's Night had an exceptional turn out! We had an exciting number of participants, with many questions asked, leading to a very informative discussion! Our next event will be a joint meeting with ASM’s Northwestern PA Chapter at the Dunkirk Specialty Steel Plant on May 25th followed by a joint-chapter dinner. This is a great opportunity to see a steel plant in the Western New York region, and an opportunity to network with a neighboring ASM chapter. We also have our annual year-end golf outing coming up! Please see the event listings for more details.

We are still receiving survey results, as a reminder, please check your email and fill out the survey! We will be contacting those who expressed an interest in joining the board or hosting a tour sometime next month. Our chapter members’ feedback is important to continue providing exciting guest speakers, tours, and networking opportunities!

This was a great year for tours and guest speakers and we hope to bring you an exciting round of programs next year! We hope to see you at the golf outing, and have a great summer!

If you are interested in becoming a Chapter Officer or Director, please do not hesitate to contact a current board member

Thank you to all our advertisers!!! Your advertising dollars are used to maintain the viability of the Buffalo Chapter of ASM International. They are used to support chapter activities such as defraying dinner meeting costs, speaker awards and to fund scholarships for outstanding students in the materials science field. The Buffalo Chapter could not exist without your support!!!

We encourage our membership to patronize our advertisers.
