ASM’s NEW ANNUAL EVENT that unites different market segments that cross the entire materials world. ASM’s 6 affiliate societies, ASM technical committees and industry partners will come together in one location to discuss application oriented, real world technologies that can be put to use today.

WHAT IS IMAT?

Microstructural Characterization and the Correlation of Microstructure to Mechanical Properties
Metallographic Preparation Techniques from Fundamentals to Novel Solutions
Quantification and Simulation of Microstructures and Properties
Additive Manufacturing
Materials 4.0: Materials Information in the Product Life Cycle
Metals, Ceramics and Composite Materials

WHAT TO EXPECT:

• 3,000 attendees
• 600 technical presentations, keynotes and panel discussions
• 300 students for recruitment in materials science
• 250 Exhibitors
• 4 days of technical programming
• 3 days of expo
• Hands-on demonstrations and workshops
• NETWORKING

TARGET MARKETS

SIGN UP TO EXHIBIT TODAY!
