ASM International Events Statement On COVID-19

ASM International’s main priority is to ensure the safety of our members, speakers, attendees, exhibitors, and staff as we continue to monitor all relevant information on the COVID-19 virus and its impact on hosting events in public spaces.

At this time all ASM Fall Events including Heat Treat, IMAT, Cold Spray and ISTFA will continue to be held as scheduled. ASM will continue to review the current CDC guidance and consult with local and state public health departments to ensure a safe and successful event. ASM is also working with each host facility to align with local and federal requirements on an ongoing basis.

If we are unable to move forward with the in-person event, we will consider postponing the conference to later dates if possible and/or will pivot to a virtual platform. If we move to a virtual platform, speakers will have the option to present virtually and exhibitors will have the option to exhibit and/or sponsor virtually or receive a full refund.

In the event the U.S. Department of State, the U.S. Centers for Disease Control and Prevention, and/or the World Health Organization issues travel restrictions that will not permit travel to Heat Treat 2021, IMAT 2021, Cold Spray 2021 or ISTFA 2021, virtual opportunities will be considered.

ASM International is committed to provide additional updates as soon as the information is available, however next steps regarding the Fall Events will be communicated no later than June 15th.

Should I submit an abstract?

YES! ASM International is planning to hold Fall Events in-person. If you are unable to attend the event in person, ASM is currently exploring options for virtual opportunities to align with the in-person event. If you need to withdraw your presentation due to travel restrictions, there will be no penalty.

Should I plan to exhibit / sponsor?

YES! ASM International is planning to hold Fall Events in-person to connect your company with your customers! If your company is unable to exhibit, ASM will provide opportunities for sponsorship, advertising and branding that support promoting your message. If you cancel the exhibit space prior to August 1, 2021 there will be no penalty and a refund can be issued.
